

VECTO *jib*

Slewing jib crane

Developed and designed for industry purposes

Our slewing jib cranes from the VECTO *jib* series offer versatile solutions for efficient light crane systems in numerous industries and work environments in production and manufacturing halls. They can be equipped with all of our electric chain hoists from the ATHLO *chain* series and with our manual chain hoists CRAFTster. The VECTO *jib* wall and pillar mounted slewing jib cranes are designed for loads from 125 up to 2.000 kg.

VECTO *jib*

Slewing jib crane

+ Flexible configuration
